Building communities and connecting people through art

Project HOPE

550 participants, which includes the staff and patients of Bright Vision Hospital, the students and members of the public, as well as members of 5 organisations came together to create a mosaic mural. This project aimed to give life to patients' stories and volunteers' aspirations of hope. This mural measuring 8ft by 16ft is now installed at the atrium of Bright Vision Hospital.

Building communities and connecting people through art
